

IngredientAI Report

Overall Health Score: 5.2/10

Ingredient Analysis

WHEAT FLOUR

Category: Grain

Health Score: 6/10

Risk Level: Low

Benefits: Good source of fiber and nutrients.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume as part of a balanced diet.

REFINED PALM OIL

Category: Oil

Health Score: 3/10

Risk Level: Medium

Benefits: High smoke point, suitable for frying.

Side Effects: High in saturated fats, may increase heart disease risk.

Recommendation: Consume in moderation.

REFINED RICE BRAN OIL

Category: Oil

Health Score: 5/10

Risk Level: Low

Benefits: High in heart-healthy unsaturated fats.

Side Effects: May cause digestive issues in some individuals.

Recommendation: Consume as part of a balanced diet.

IODIZED SALT

Category: Seasoning

Health Score: 7/10

Risk Level: Low

Benefits: Essential for thyroid function and overall health.

Side Effects: Excessive consumption may lead to high blood pressure.

Recommendation: Consume in moderation.

INS 1420

Category: Additive

Health Score: 2/10

Risk Level: Medium

Benefits: Improves product shelf life.

Side Effects: May cause allergic reactions or digestive issues in some individuals.

Recommendation: Consume with caution.

INS 445

Category: Additive

Health Score: 3/10

Risk Level: Medium

Benefits: Enhances product texture and appearance.

Side Effects: May cause digestive issues or allergic reactions in some individuals.

Recommendation: Consume in moderation.

INS 451

Category: Additive

Health Score: 2/10

Risk Level: Medium

Benefits: Enhances product texture and appearance.

Side Effects: May cause allergic reactions or digestive issues in some individuals.
Recommendation: Consume with caution.

INS 500

Category: Additive
Health Score: 4/10
Risk Level: Low
Benefits: Improves product stability and texture.
Side Effects: May cause digestive issues in some individuals.
Recommendation: Consume in moderation.

INS 501

Category: Additive
Health Score: 4/10
Risk Level: Low
Benefits: Improves product stability and texture.
Side Effects: May cause digestive issues in some individuals.
Recommendation: Consume in moderation.

INS 319

Category: Additive
Health Score: 5/10
Risk Level: Low
Benefits: Extends product shelf life and maintains nutritional value.
Side Effects: May cause allergic reactions in some individuals.
Recommendation: Consume as part of a balanced diet.

CORIANDER

Category: Spice
Health Score: 8/10
Risk Level: Low
Benefits: Rich in antioxidants and may aid digestion.
Side Effects: May cause allergic reactions in some individuals.
Recommendation: Consume as part of a balanced diet.

CHIL

Category: Spice
Health Score: 7/10
Risk Level: Low
Benefits: May aid digestion and relieve pain.
Side Effects: May cause heartburn or discomfort in some individuals.
Recommendation: Consume in moderation.

CUMIN

Category: Spice
Health Score: 8/10
Risk Level: Low
Benefits: May aid digestion and boost immunity.
Side Effects: May cause allergic reactions in some individuals.
Recommendation: Consume as part of a balanced diet.

BLACK PEPPER

Category: Spice
Health Score: 8/10
Risk Level: Low
Benefits: May aid digestion and relieve pain.
Side Effects: May cause stomach upset in some individuals.
Recommendation: Consume in moderation.

TURMERIC

Category: Spice

Health Score: 9/10

Risk Level: Low

Benefits: Rich in antioxidants and may aid inflammation.

Side Effects: May cause stomach upset in some individuals.

Recommendation: Consume as part of a balanced diet.

GINGER

Category: Spice

Health Score: 8/10

Risk Level: Low

Benefits: May aid digestion and relieve nausea.

Side Effects: May cause stomach upset in some individuals.

Recommendation: Consume in moderation.

FENNEL

Category: Spice

Health Score: 8/10

Risk Level: Low

Benefits: May aid digestion and relieve bloating.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume as part of a balanced diet.

CLOVE

Category: Spice

Health Score: 7/10

Risk Level: Low

Benefits: May aid digestion and relieve pain.

Side Effects: May cause stomach upset or allergic reactions in some individuals.

Recommendation: Consume in moderation.

STAR ANISE

Category: Spice

Health Score: 7/10

Risk Level: Low

Benefits: May aid digestion and relieve nausea.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume in moderation.

NUTMEG

Category: Spice

Health Score: 6/10

Risk Level: Low

Benefits: May aid digestion and relieve pain.

Side Effects: May cause stomach upset or allergic reactions in some individuals.

Recommendation: Consume in moderation.

GREEN CARDAMOM

Category: Spice

Health Score: 8/10

Risk Level: Low

Benefits: May aid digestion and freshen breath.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume as part of a balanced diet.

HYDROLYZED SOYA PROTEIN

Category: Protein

Health Score: 5/10

Risk Level: Medium

Benefits: Provides protein and may aid satiety.
Side Effects: May cause allergic reactions or digestive issues in some individuals.
Recommendation: Consume in moderation.

REFINED WHEAT FLOUR

Category: Grain
Health Score: 4/10
Risk Level: Low
Benefits: Good source of carbohydrates.
Side Effects: May cause allergic reactions or digestive issues in some individuals.
Recommendation: Consume in moderation.

SUNFLOWER OIL

Category: Oil
Health Score: 6/10
Risk Level: Low
Benefits: High in heart-healthy unsaturated fats.
Side Effects: May cause digestive issues in some individuals.
Recommendation: Consume as part of a balanced diet.

WHEAT GLUTEN

Category: Protein
Health Score: 5/10
Risk Level: Medium
Benefits: Provides protein and may aid satiety.
Side Effects: May cause allergic reactions or digestive issues in some individuals.
Recommendation: Consume in moderation.

INS 170

Category: Additive
Health Score: 4/10
Risk Level: Low
Benefits: Improves product stability and texture.
Side Effects: May cause digestive issues in some individuals.
Recommendation: Consume in moderation.

INS 508

Category: Additive
Health Score: 3/10
Risk Level: Medium
Benefits: Enhances product texture and appearance.
Side Effects: May cause digestive issues or allergic reactions in some individuals.
Recommendation: Consume in moderation.

INS 412

Category: Additive
Health Score: 3/10
Risk Level: Medium
Benefits: Enhances product texture and appearance.
Side Effects: May cause digestive issues or allergic reactions in some individuals.
Recommendation: Consume in moderation.

INS 504

Category: Additive
Health Score: 4/10
Risk Level: Low
Benefits: Improves product stability and texture.
Side Effects: May cause digestive issues in some individuals.
Recommendation: Consume in moderation.

SUGAR

Category: Sweetener

Health Score: 4/10

Risk Level: Medium

Benefits: Quick energy.

Side Effects: High intake increases risk of obesity and diabetes.

Recommendation: Consume in moderation.

STARCH

Category: Carbohydrate

Health Score: 5/10

Risk Level: Low

Benefits: Good source of carbohydrates.

Side Effects: May cause digestive issues in some individuals.

Recommendation: Consume as part of a balanced diet.

INS 330

Category: Additive

Health Score: 4/10

Risk Level: Low

Benefits: Improves product stability and texture.

Side Effects: May cause digestive issues in some individuals.

Recommendation: Consume in moderation.

INS 635

Category: Additive

Health Score: 2/10

Risk Level: Medium

Benefits: Improves product flavor.

Side Effects: May cause allergic reactions or digestive issues in some individuals.

Recommendation: Consume with caution.

INS 551

Category: Additive

Health Score: 4/10

Risk Level: Low

Benefits: Improves product texture and appearance.

Side Effects: May cause respiratory issues in some individuals.

Recommendation: Consume in moderation.

NATURAL & NATURE IDENTICAL FLAVOURING SUBSTANCES

Category: Flavoring

Health Score: 5/10

Risk Level: Low

Benefits: Improves product flavor.

Side Effects: May cause allergic reactions or digestive issues in some individuals.

Recommendation: Consume in moderation.

AI Recommendation

****Summary****: This noodle product has a moderate health score of 5.23/10, indicating a mix of healthy and unhealthy ingredients. ****Healthy ingredients****: Wheat flour, coriander, chili, cumin, turmeric, ginger, and black pepper provide some nutritional value. ****Harmful ingredients****: Refined palm oil, refined rice bran oil, and high amounts of sodium and sugar are detrimental to health. ****Avoid****: Those with wheat or soy allergies, high blood pressure, or cardiovascular concerns should avoid this product. ****Final recommendation****: Consume in moderation due to high sodium and sugar content. Consider alternative, whole-grain noodle options with fewer additives.
