

IngredientAI Report

Overall Health Score: 5.8/10

Ingredient Analysis

WHEAT FLOUR

Category: Grain

Health Score: 6/10

Risk Level: Low

Benefits: Good source of fiber and nutrients.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Choose whole wheat flour for more nutritional benefits.

REFINED PALM OIL

Category: Oil

Health Score: 3/10

Risk Level: High

Benefits: High smoke point for frying.

Side Effects: High in saturated fats, increasing risk of heart disease.

Recommendation: Consume in moderation due to high saturated fat content.

REFINED RICE BRAN OIL

Category: Oil

Health Score: 5/10

Risk Level: Medium

Benefits: High in heart-healthy unsaturated fats.

Side Effects: May become rancid if not stored properly.

Recommendation: Choose high-quality oil to minimize potential side effects.

IODIZED SALT

Category: Seasoning

Health Score: 7/10

Risk Level: Low

Benefits: Essential for thyroid function and overall health.

Side Effects: Excessive consumption may lead to high blood pressure.

Recommendation: Consume in moderation as part of a balanced diet.

INS 1420

Category: Additive

Health Score: 4/10

Risk Level: Medium

Benefits: Helps maintain product consistency.

Side Effects: May cause gastrointestinal issues in some individuals.

Recommendation: Monitor consumption and adjust as needed.

INS 445

Category: Additive

Health Score: 5/10

Risk Level: Medium

Benefits: Helps mix oil and water-based ingredients.

Side Effects: May cause gastrointestinal issues in some individuals.

Recommendation: Monitor consumption and adjust as needed.

INS 451

Category: Additive

Health Score: 5/10

Risk Level: Medium

Benefits: Helps preserve product freshness.

Side Effects: May cause gastrointestinal issues in some individuals.
Recommendation: Monitor consumption and adjust as needed.

INS 500

Category: Additive
Health Score: 5/10
Risk Level: Low
Benefits: Improves product texture and convenience.
Side Effects: Generally considered safe.
Recommendation: No specific recommendations needed.

INS 501

Category: Additive
Health Score: 5/10
Risk Level: Low
Benefits: Improves product texture and convenience.
Side Effects: Generally considered safe.
Recommendation: No specific recommendations needed.

INS 319

Category: Additive
Health Score: 6/10
Risk Level: Low
Benefits: Helps preserve product freshness and nutritional value.
Side Effects: Generally considered safe.
Recommendation: No specific recommendations needed.

CORIANDER

Category: Spice
Health Score: 8/10
Risk Level: Low
Benefits: Rich in antioxidants and may help lower cholesterol.
Side Effects: May cause allergic reactions in some individuals.
Recommendation: Consume in moderation as part of a balanced diet.

CHIL

Category: Spice
Health Score: 7/10
Risk Level: Low
Benefits: May help improve digestion and relieve pain.
Side Effects: May cause heartburn and stomach discomfort in some individuals.
Recommendation: Consume in moderation to avoid discomfort.

CUMIN

Category: Spice
Health Score: 8/10
Risk Level: Low
Benefits: May help improve digestion and boost immunity.
Side Effects: May cause allergic reactions in some individuals.
Recommendation: Consume in moderation as part of a balanced diet.

BLACK PEPPER

Category: Spice
Health Score: 8/10
Risk Level: Low
Benefits: May help improve digestion and relieve pain.
Side Effects: May cause stomach discomfort in some individuals.
Recommendation: Consume in moderation to avoid discomfort.

TURMERIC

Category: Spice

Health Score: 9/10

Risk Level: Low

Benefits: Rich in antioxidants and may help reduce inflammation.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume in moderation as part of a balanced diet.

GINGER

Category: Spice

Health Score: 8/10

Risk Level: Low

Benefits: May help improve digestion and relieve nausea.

Side Effects: May cause stomach discomfort in some individuals.

Recommendation: Consume in moderation to avoid discomfort.

FENNEL

Category: Spice

Health Score: 8/10

Risk Level: Low

Benefits: May help improve digestion and relieve bloating.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume in moderation as part of a balanced diet.

CLOVE

Category: Spice

Health Score: 7/10

Risk Level: Low

Benefits: May help relieve pain and improve digestion.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume in moderation as part of a balanced diet.

STAR ANISE

Category: Spice

Health Score: 7/10

Risk Level: Low

Benefits: May help improve digestion and relieve cough.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume in moderation as part of a balanced diet.

NUTMEG

Category: Spice

Health Score: 6/10

Risk Level: Medium

Benefits: May help improve digestion and relieve pain.

Side Effects: May cause hallucinations and other adverse effects in large quantities.

Recommendation: Consume in moderation and avoid excessive intake.

GREEN CARDAMOM

Category: Spice

Health Score: 8/10

Risk Level: Low

Benefits: May help improve digestion and freshen breath.

Side Effects: May cause allergic reactions in some individuals.

Recommendation: Consume in moderation as part of a balanced diet.

HYDROLYZED SOYA PROTEIN

Category: Protein

Health Score: 5/10

Risk Level: Medium

Benefits: Provides protein and helps improve texture.
Side Effects: May cause allergic reactions in some individuals.
Recommendation: Monitor consumption and adjust as needed.

REFINED WHEAT FLOUR

Category: Grain
Health Score: 4/10
Risk Level: Medium
Benefits: Easy to digest and provides energy.
Side Effects: May cause digestive issues in some individuals.
Recommendation: Choose whole wheat flour for more nutritional benefits.

SUNFLOWER OIL

Category: Oil
Health Score: 6/10
Risk Level: Medium
Benefits: High in heart-healthy unsaturated fats.
Side Effects: May become rancid if not stored properly.
Recommendation: Choose high-quality oil to minimize potential side effects.

WHEAT GLUTEN

Category: Protein
Health Score: 5/10
Risk Level: Medium
Benefits: Helps improve texture and provides protein.
Side Effects: May cause allergic reactions in some individuals.
Recommendation: Monitor consumption and adjust as needed.

INS 170

Category: Additive
Health Score: 5/10
Risk Level: Medium
Benefits: Helps preserve product freshness.
Side Effects: May cause gastrointestinal issues in some individuals.
Recommendation: Monitor consumption and adjust as needed.

INS 508

Category: Additive
Health Score: 5/10
Risk Level: Low
Benefits: Improves product texture and convenience.
Side Effects: Generally considered safe.
Recommendation: No specific recommendations needed.

INS 412

Category: Additive
Health Score: 5/10
Risk Level: Medium
Benefits: Helps mix oil and water-based ingredients.
Side Effects: May cause gastrointestinal issues in some individuals.
Recommendation: Monitor consumption and adjust as needed.

INS 504

Category: Additive
Health Score: 5/10
Risk Level: Low
Benefits: Improves product texture and convenience.
Side Effects: Generally considered safe.
Recommendation: No specific recommendations needed.

SUGAR

Category: Sweetener

Health Score: 4/10

Risk Level: Medium

Benefits: Quick energy.

Side Effects: High intake increases risk of obesity and diabetes.

Recommendation: Consume in moderation.

STARCH

Category: Carbohydrate

Health Score: 5/10

Risk Level: Low

Benefits: Easy to digest and provides energy.

Side Effects: May cause digestive issues in some individuals.

Recommendation: Choose whole grains for more nutritional benefits.

INS 330

Category: Additive

Health Score: 5/10

Risk Level: Medium

Benefits: Helps preserve product freshness.

Side Effects: May cause gastrointestinal issues in some individuals.

Recommendation: Monitor consumption and adjust as needed.

INS 635

Category: Additive

Health Score: 4/10

Risk Level: Medium

Benefits: Improves product flavor.

Side Effects: May cause adverse effects in some individuals.

Recommendation: Monitor consumption and adjust as needed.

INS 551

Category: Additive

Health Score: 5/10

Risk Level: Low

Benefits: Improves product texture and convenience.

Side Effects: Generally considered safe.

Recommendation: No specific recommendations needed.

NATURAL & NATURE IDENTICAL FLAVOURING SUBSTANCES

Category: Flavoring

Health Score: 5/10

Risk Level: Medium

Benefits: Improves product flavor.

Side Effects: May cause adverse effects in some individuals.

Recommendation: Monitor consumption and adjust as needed.

AI Recommendation

****Summary****: This instant noodle product has a moderate health score of 5.8/10, indicating some nutritional concerns. ****Healthy ingredients****: Wheat flour, coriander, cumin, black pepper, turmeric, and ginger provide some nutritional value. ****Harmful ingredients****: Refined palm oil, refined rice bran oil, and high amounts of sodium and sugar are detrimental to health. ****Avoid****: Individuals with wheat or soy allergies, high blood pressure, or those on a low-sodium diet should avoid this product. ****Recommendation****: Consume in moderation due to high sodium and sugar content. Consider alternative, whole-grain noodle options with fewer additives.
